Επιλογή Παιχνιδιών

- Επιλογή σύντομων παιχνιδιών, που δεν βασίζονται σε περίπλοκα και χρονοβόρα σενάρια, ώστε ο μαθητής να μπορεί να ασχοληθεί ακόμα και σε περιορισμένο προσφερόμενο χρόνο (15'-20')
- Επιλογή αρκετών παιχνιδιών ώστε ο εκπαιδευτικός να αναζητά το κατάλληλο παιχνίδι ανάλογα με τον εκπαιδευτικό στόχο ή το θέμα του μαθήματος (διαθεματική προσέγγιση)
- Επιλογή απλών παιχνιδιών τα οποία δεν φορτώνουν το μαθητή με άχρηστο όγκο πληροφοριών/οδηγιών, ενώ αντίθετα προάγουν την ανακαλυπτική μάθηση.

Hiyah

Hiyah Free Software Listing

The programs are completely free and easily installed / uninstalled. The Download versions are made to run on Microsoft Windows compatible operating systems. The Play Online version works on Macs or PCs. **We welcome suggestions and comments** (support@hiyah.net) **Thanks!**

To be automatically notified of new programs and updates, please click here (note: do not use your school email address if it is blocked from receiving outside emails)

Download vs Play Online: If you are using a PC running MS-Windows and you are on a computer that you are allowed to download to, Download is clearly the best option. The program will have a much higher resolution, the speed and animations will be better, and the program is on your own PC to use whenever you wish. If you are on a school computer that does not allow downloads or you are using a Mac, the the Play Online option is the best alternative for you. It will have a much lower resolution and the animations are somewhat distorted. **The first slide of the online version will take a few minutes to load but everything is there.** Download and Play online are BOTH FREE.

Sebran's ABC - Free Software For Kids

(This page is available in Afrikaans, Croatian, Czech, English, Estonian, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish and Swedish)

Download Sebran's ABC (700 kb)

It's never too early for your child to become familiar with letters and numbers. Sebran's ABC's colorful pictures, pleasant music, and gentle games teach letters, numbers, simple math, and rudiments of reading.

The program teaches using either Afrikaans, Bahasa Indonesian, Breton, Catalan, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Icelandic, Italian, Lithuanian, Norwegian, Polish, Portuguese, Romanian, Samoan, Slovak, Slovenian, Spanish, Turkish, Swahili or Swedish (in Swedish, the droll zebra gracing the main screen is called "sebran").

The six simpler exercises display four possible answers. Choose the right one and it becomes a smile; an error gets a frown and a chance to try again. The How Many? counting game introduces the numbers from 1 to 9. These are used in the Add, Subtract, and Multiply matching games, which each function at two levels of difficulty. In Pick A Picture, one of four pictures matches a word; First Letter offers four possible letters completing a word. Your child can employ the skills gained in these exercises to play Memory, Word Memory, or Hangman. Finally, the ABC Rain, Letter Rain, and 1+2 Rain games help train little fingers in using the keyboard.

Sebran's ABC is freeware.

2006-09-01: Version 1.46 of Sebran was released. Includes an option to
